

Year 4 Homework

Handed out: Friday 25th May

Handed in: Wednesday 6th June

We have had a wonderful week exploring what it would have been like to be in Ancient Mayan times. We have been learning about the Mayan number system, created Mayan God's eyes and played traditional Mayan football 'Pok-a-Tok'. Maybe the children could share these new skills with you.

Dates for your diary:

15th June – Fathers' Day shop

22nd June – Eid parties

6th July – INSET day

9th July – Start of Health and Fitness Week

17th July – Year 4 topic celebration feast

Spelling Challenge

The expectation is you need to be able to spell all of the Year 3 and 4 spelling words. These need to be secure as you will get a brand new spelling list in Year 5.

Over this holiday, we would like you to go through the spelling list and practice the spellings you still find tricky.

Your parents need to test you on each word and tick the first box. Any words you cannot spell need practicing ready for us to check at the beginning of next term. Try your best!

Play the against the clock spelling game for Year 4 words. <https://www.spellzone.com/games/index.cfm>

Maths

By the end of Year 4 the expectation is you will know all your time tables up to 12X12. Please practise any times tables that you find tricky so that you know as many as them as possible. This means that you need to have instant recall of any times table fact. E.g. $7 \times 8 = 56$, $3 \times 7 = 21$ and $9 \times 9 = 81$.
